#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mazer in view of Weber.

Mazer discloses the claimed method with the exception of the requirement that at least one putt be directed into the green being played. (Regarding the plurality of greens between the tee area and the back edge note Col. 2, first full paragraph. Mazer's device when used with 18 greens would inherently provide a multitude of greens between the back edge and the tee area).

While Mazer does not specify that at least one putt of a series be played into the green Mazer does specify that various games may be played on his mat. It is known in putting games as typified by Weber that at least one putt must be played into the green to finish the hole as is common in golf. It would have been obvious to one of ordinary skill in the art to have specified such a rule in one of Mazer's game to more readily simulate an actual game of golf.

Regarding claim 6, note Mazer's zones numbered 1-6.

Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 7 is allowed.

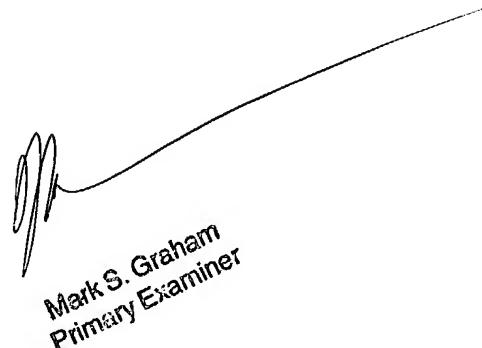

Talley, Jr., Florian, Sedberry, Ford, Erdoes et al., Centafanti, and Eady have been cited for interest because they disclose similar games.
